

Analysis of Student Satisfaction Survey for the year 2022-23

It is very essential to get continuous feedback from the students about the implemented curriculum to maintain proper functioning of the institute and also to improvise the necessary changes at a certain point of time. The data has been gathered from the students of the B.Ed. programme including students of B.ed 1st year and B.Ed. II year in 2020-2023. The purpose of gathering data is to see whether the student are satisfied with the implemented curriculum . The detailed description of the responses from the students are given below:-

Detail of responses from the students

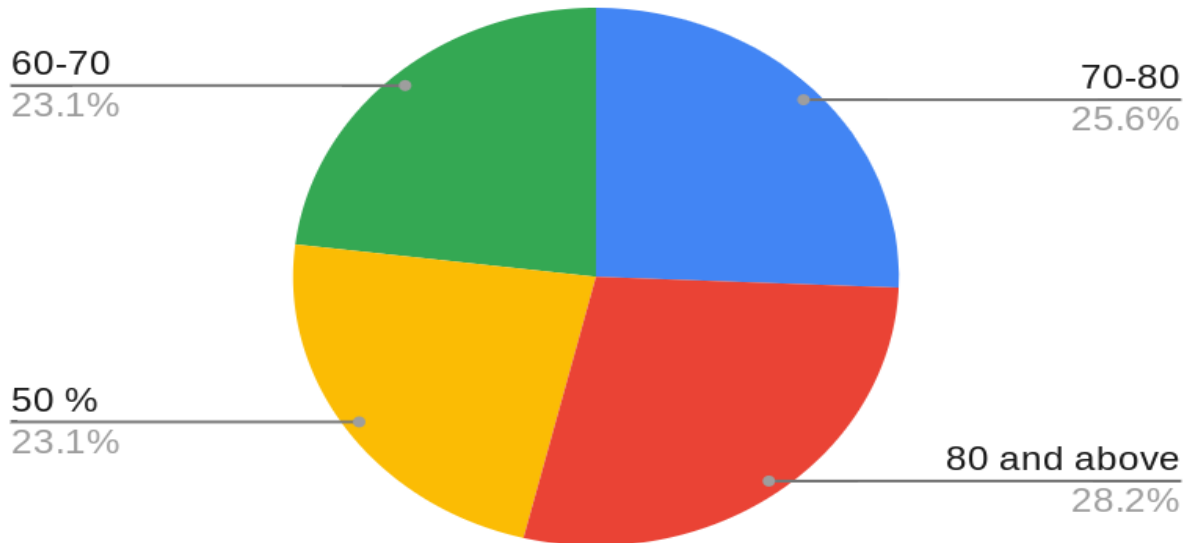

The diagram given below depicts the detail of the students who responded to the Google form and filled the Google forms. The details are as follows:-

Count of Name

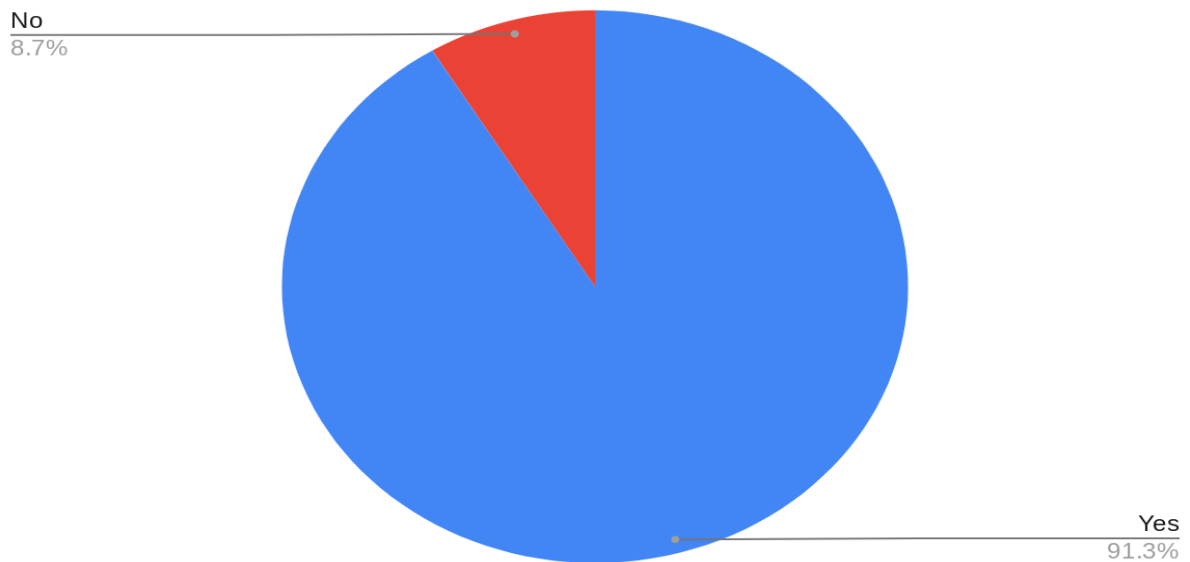

1-Syllabus covered during the class

Count of Syllabus covered in the class

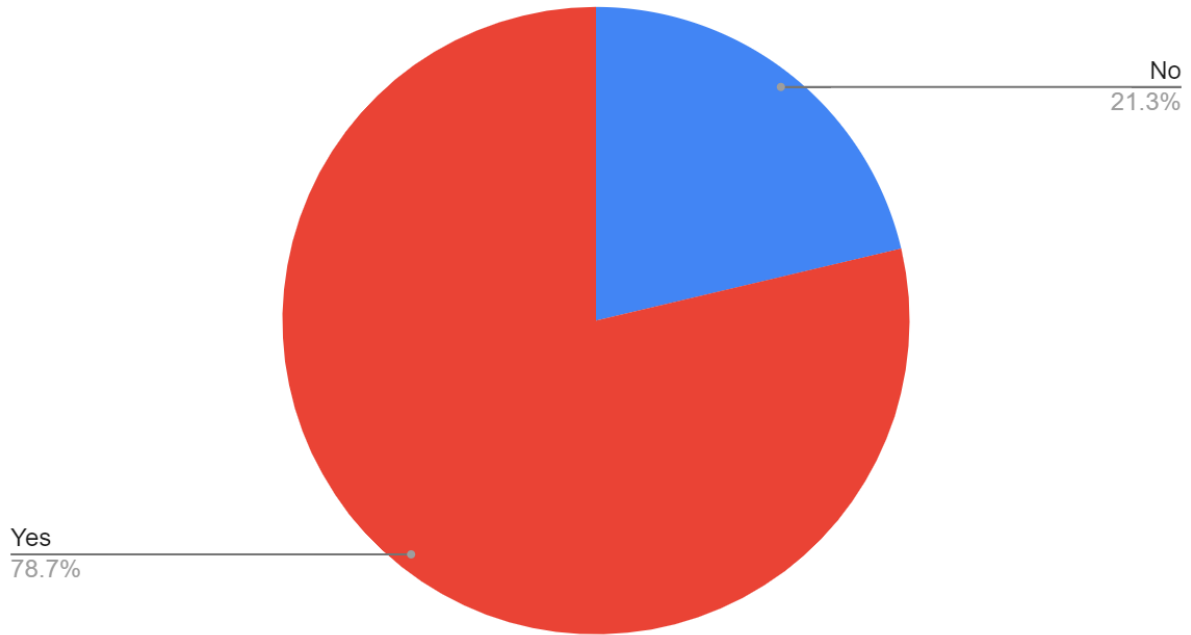

2-Teachers role in the class was appropriate

Count of Teachers role in the class was appropriate

Count of Teachers uses ICT equipped tools such as LCD projector, Multimedia, etc. for effective teaching-learning pro...

Summary

Majority of the students responded in favor of the statements i.e syllabus covered, well equipped classroom, appropriate teaching learning process, for which there is depiction in the chart.

Action taken by the Head of the institution

There are positive response from the students in majority of the questions but there are certain areas where student are not satisfied such as ICT equipped material for which the requisition has been given for installing new projector in the classroom. There is continuous evaluation of teaching learning process by maintaining the teaching plans from the teachers and observation by authoritative person from time to time. Following are the actions that principal has taken:-

Timely check of the lectures

- Classroom well equipped with ICT tools.
- Check of the LP timely.
- Check of the LABS timely.
