

"SAY NO TO PLASTIC"

ECO-FRIENDLY BAG MAKING ACTIVITY

The Institute of Vocational Studies organized an activity on the theme "Say No to Plastic, (eco-friendly bag making activity), on April 26th, 2024, under the ECO CLUB. This event was conducted under the esteemed guidance of Dr. Mandira Gupta (Principal - IVS), and skillfully coordinated by Ms. Nahid Raees, the Eco Club Incharge. The primary goal of this initiative was to underscore the significance of embracing eco-friendly alternatives in our daily lives.

In the Eco Club's calendar, this month was dedicated to the "Say No to Plastic" campaign, reflecting the institution's commitment to environmental sustainability. The overarching objective of the activity was to foster awareness and encourage proactive measures to preserve our environment. The enthusiastic participation of all students further underscored the collective resolve to address pressing environmental concerns.

The activity served as a platform to educate students about the adverse effects of plastic pollution and the imperative to adopt sustainable practices. By engaging in eco-friendly bag making, students not only learned practical skills but also internalized the importance of reducing plastic usage.

The success of this initiative highlights the proactive stance of IVS in promoting environmental consciousness among its students. Moving forward, the institution remains committed to instilling a sense of responsibility toward the environment and nurturing a culture of sustainability. Through continued efforts and collaborative endeavors, IVS endeavors to create a greener, healthier future for generations to come.
