

Report on Micro training on “Traffic Distancing” held on 28th July 2020

A Zoom meeting announcing the mega launch of **Micro Training on “Traffic Distancing”** on www.doorihaizaroori.com was held on *28th July 2020* by *Institute of Vocational Studies* in collaboration with Bharat Scout and Guide.

The main objective of training was to highlight the importance of “Traffic Distancing”.

The training was conducted by Mr. Pankaj Sain who stressed upon the preventive measures that we are undertaking for our safety from corona-a deadly disease causing millions of deaths worldwide. He then raised a very important question, which is that if the number of deaths occurring due to road accidents is far greater than due to corona, why we are not taking enough measures to combat it?

The workshop then proceeded with factual information such as

- ✚ Number of deaths being caused by road accidents
- ✚ An increase in the number of deaths by same during lockdown
- ✚ How road accidents are the biggest cause of unnatural deaths

Several videos showing the present scenario of the condition were helpful in understanding the problem better.

Finally the session talked about the ways to combat the problem via the 2 seconds rule or the 3 seconds rule, the MSM (Mirror, Signal and Manoeuvre) method and their benefits to us to help decrease the chances of a road accident.

It was further proceeded by an interactive session where the participants raised their questions, concerns and doubts which was addressed by the speaker.

One can register @www.doorihaizaroori.com to get micro trained on the topic and become a micro trainer w.e.f 28th July 2020 to further spread the awareness on the topic.

It was indeed an eye-opener session and very helpful in spreading the awareness towards traffic distancing and its implications.
