<b>Date</b>	18-11-2022
<b>Time</b>	12pm -2pm
<b>Principal</b>	Dr. Mandira Gupta
<b>NSS program officer</b>	Ms. Nahid Raees

**Activity details**

A drive for clean Delhi was organized by NSS (Cell) members of Institute of Vocational Studies. The purpose of the drive was to dispose of the biodegradable and non- biodegradable object littering around in the Satpula lake. The main objective of the citizen drive was to address the issue of the hygiene public in sanitary condition and to create awareness towards cleanliness in the public places.

The drive started at 12:00 p.m. with the motivational speech by our principal Dr. Mandira Gupta continued with the NSS teacher. Around 80 students took part in the drive mostly students carried plastic bottles, plastic bags, rappers, and waste papers approximately 4-5 kg and dumb them in the garbage bags.

Students with posters slogans attracted the attention of the citizens in the park and spread awareness between them and not to throw garbage in any public place. The drive was very successful. At the end the teacher distributed refreshments among the students and they were very happy and appreciated it when we returned back to our college.
