A visit to National Science Centre was organized by the Institute of Vocational Studies on 6th November, 2015. The students made aware about the various scientific facts, truths and mysteries through various galleries exhibited different aspects. Some of the different galleries were water the elixir of life, Human Biology, Physics mysteries etc. Animated models of dinosaurs depicted pre-historical life. The information and communication technology was also one of the interesting galleries. The students also saw a 3D movie in the theatre which was about the development of life from pre-historic to the present era. The visit was great way to arouse curiosity in the minds of the students, possibly even helping an initiation amongst the students into the field and the students understood how science works around us.
